Transportation Permits Policy Memorandum

Subject: Assign Pilot for Overhang Over 30'

Date: March 1, 2006

Policy: TPPM 2006-03

Reference: Pilot Car, CTPAC-WG11-012605-001

Objectives

This policy will:
• Allow pilot cars to be assigned, for fixed driven or towed vehicles, by the same criteria as truck cranes.
• Allow for fixed driven or towed vehicles with an inspection report, that measures overhang from the center of the rear axle, to be assigned a pilot car when overhang exceeds 30’0”.

Existing Documentation

The following source contains information related to this subject:

Transportation Permits Manual (TPM)

Section 502.5 (Portion) – Pilot Car Requirements (Fourth Bullet)

• If the rear boom overhang of any truck crane exceeds 30’0” when measured from the centerline of the last axle of the boom support vehicle to the last hard metal.

Transportation Permits Manual Changes

Section 502.5 (Portion) – Pilot Car Requirements (Amended Fourth Bullet)

• If the rear overhang of any fixed driven or towed vehicle exceeds 30’0” when measured from the centerline of the last axle of the support vehicle to the last hard metal.
