

Butte County

Demographic and Economic Profile and Long-Run Forecast

Butte County Profile

- Butte County ranked sixth in net migration in 2024, with a net increase of about 600 people moving into the county.
- Butte County's median price of a single-family home was \$444,000 in 2024, about half of the statewide average of \$867,000, for the same period.
- It costs about \$8,000 a month (\$97,000 a year) for a family of three to live in the county, roughly 11 percent less than the statewide average, and nearly 1.2 times the cost in Imperial and Kern counties, the cheapest in California with a cost of about \$6,700 a month.

Butte County Latest Actual

Levels and State Rank

1. Inflation and unemployment rates are ordered from the lowest to highest, such that counties with lower rates rank closer to #1, reflecting a favorable economic status.
2. Inflation rates are based on four regional Consumer Price Index (CPI) estimates produced by the U.S. Bureau of Labor Statistics (BLS). County-level CPI data do not exist, and all 58 counties are assigned to one of the four regions or the statewide inflation forecast, resulting in only five distinct inflation rankings.
3. Per capita income is converted into 2024 dollars using the statewide California Consumer Price Index (CPI).
