

# Humboldt County

*Demographic and Economic Profile and Long-Run Forecast*

# Humboldt County Profile

- Humboldt County's median price of a single-family home was \$435,000 in 2024, about half the statewide average of \$867,000 for the same period.
- It costs about \$8,200 a month (\$99,000 a year) for a family of three to live in the county, about 10 percent less than the statewide average, and about 1.2 times the cost in Imperial and Kern counties, the cheapest in California with a cost of about \$6,700 a month.

# Humboldt County Latest Actual

## Levels and State Rank

1. Inflation and unemployment rates are ordered from the lowest to highest, such that counties with lower rates rank closer to #1, reflecting a favorable economic status.
2. Inflation rates are based on four regional Consumer Price Index (CPI) estimates produced by the U.S. Bureau of Labor Statistics (BLS). County-level CPI data do not exist, and all 58 counties are assigned to one of the four regions or the statewide inflation forecast, resulting in only five distinct inflation rankings.
3. Per capita income is converted into 2024 dollars using the statewide California Consumer Price Index (CPI).
