

Lassen County

Demographic and Economic Profile and Long-Run Forecast

Lassen County Profile

- Lassen County ranked 36th in farm production sales (\$143 million) among California's counties in 2023, just behind Mendocino and Los Angeles counties.
- Lassen County's median price for a single-family home was \$252,000 in 2024, nearly 29 percent of the statewide average price of \$867,000 for the same period and the lowest of any county in the survey.
- It costs about \$8,000 a month (\$96,000 a year) for a family of three to live in the county, 12 percent less than the statewide average, and nearly 1.2 times the cost to live in Imperial and Kern counties, the cheapest in California, with a cost of about \$6,700 a month.

Lassen County Latest Actual

Levels and State Rank

1. Inflation and unemployment rates are ordered from the lowest to highest, such that counties with lower rates rank closer to #1, reflecting a favorable economic status.
2. Inflation rates are based on four regional Consumer Price Index (CPI) estimates produced by the U.S. Bureau of Labor Statistics (BLS). County-level CPI data do not exist, and all 58 counties are assigned to one of the four regions or the statewide inflation forecast, resulting in only five distinct inflation rankings.
3. Per capita income is converted into 2024 dollars using the statewide California Consumer Price Index (CPI).
