

Mono County

Demographic and Economic Profile and Long-Run Forecast

Mono County Profile

- Mono County ranked 51st among California's counties in Real Industrial Production (\$65 million) in 2023.
- Mono County's median price for a single-family home was \$993,000 in 2024, about 14 percent more than the statewide average price of \$867,000 for the same period.
- It costs about \$9,300 a month (\$112,000 a year) for a family of three to live in the county, about three percent more than the statewide average, and 39 percent more than the cost to live in Imperial and Kern counties, the cheapest in California, with a cost of about \$6,700 a month.

Mono County Profile Latest Actual

Levels and State Rank

1. Inflation and unemployment rates are ordered from the lowest to highest, such that counties with lower rates rank closer to #1, reflecting a favorable economic status.
2. Inflation rates are based on four regional Consumer Price Index (CPI) estimates produced by the U.S. Bureau of Labor Statistics (BLS). County-level CPI data do not exist, and all 58 counties are assigned to one of the four regions or the statewide inflation forecast, resulting in only five distinct inflation rankings.
3. Per capita income is converted into 2024 dollars using the statewide California Consumer Price Index (CPI).
