

San Joaquin County

Demographic and Economic Profile and Long-Run Forecast

San Joaquin County Profile

- San Joaquin County ranked seventh among California's counties in farm jobs (14,300) in 2024 and farm production sales (\$3.2 billion) in 2023, right behind Merced and Stanislaus counties.
- San Joaquin County's median price of a single-family home was \$551,000 in 2024, nearly 64 percent of the statewide average price of \$867,000 for the same period.
- It costs about \$7,900 a month (\$95,000 a year) for a family of three to live in the county, about 13 percent less than the statewide average, and less than 20 percent above Imperial and Kern counties, the cheapest in California, with a cost of about \$6,700 a month.

San Joaquin County Latest Actual

Levels and State Rank

1. Inflation and unemployment rates are ordered from the lowest to highest, such that counties with lower rates rank closer to #1, reflecting a favorable economic status.
2. Inflation rates are based on four regional Consumer Price Index (CPI) estimates produced by the U.S. Bureau of Labor Statistics (BLS). County-level CPI data do not exist, and all 58 counties are assigned to one of the four regions or the statewide inflation forecast, resulting in only five distinct inflation rankings.
3. Per capita income is converted into 2024 dollars using the statewide California Consumer Price Index (CPI).
