*Demographic and Economic Profile and Long-Run Forecast*

# Solano County Profile

- Solano County ranked ninth among California counties in real industrial production (\$11 billion) in 2023.
- Solano County's median price of a single-family home was \$592,000 in 2024, about 68 percent of the statewide average price of \$867,000 for the same period.
- It costs about \$9,500 a month (\$113,800 a year) for a family of three to live in the county, about five percent more than the statewide average, and about 1.4 times the cost in Imperial and Kern counties, the cheapest in California with a cost of about \$6,700 a month.

# Solano County Latest Actual

## Levels and State Rank

1. Inflation and unemployment rates are ordered from the lowest to highest, such that counties with lower rates rank closer to #1, reflecting a favorable economic status.
2. Inflation rates are based on four regional Consumer Price Index (CPI) estimates produced by the U.S. Bureau of Labor Statistics (BLS). County-level CPI data do not exist, and all 58 counties are assigned to one of the four regions, resulting in only four distinct inflation rankings.
3. Per capita income is converted into 2024 dollars using the statewide California Consumer Price Index (CPI).
