

# Trinity County

*Demographic and Economic Profile and Long-Run Forecast*

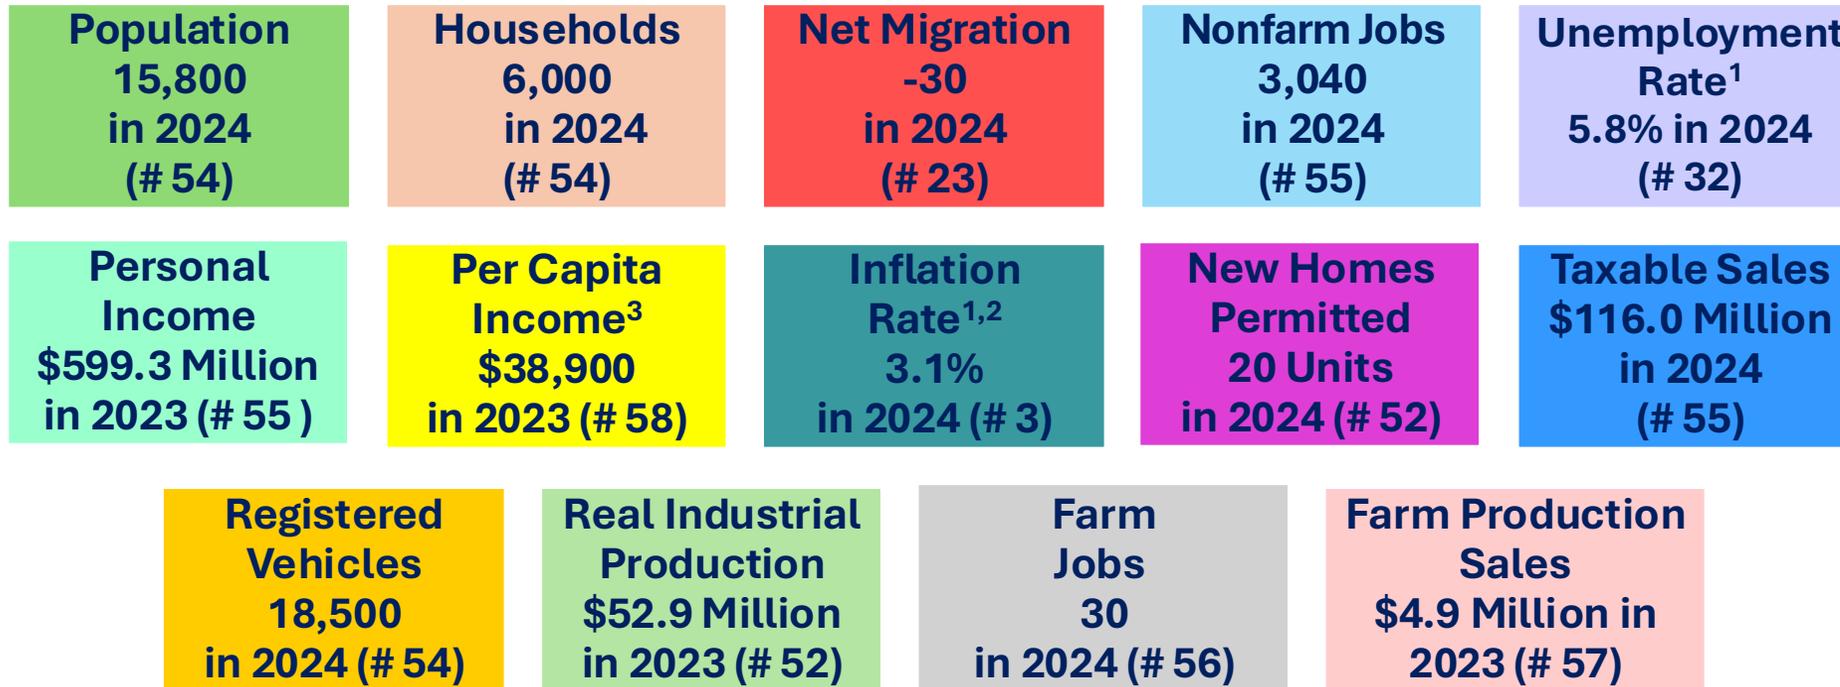

# Trinity County Profile

- Trinity County had the lowest per capita income of any California county in 2023 (\$38,900 in 2024\$).
- Trinity County's median price for a single-family home was \$300,000 in 2024, nearly 35 percent of the statewide average price of \$867,000 for the same period.
- It costs approximately \$7,700 per month (\$ 93,000 per year) for a family of three to live in the county, about 15 percent less than the statewide average, and about 15 percent above the cost to live in Imperial and Kern counties, the cheapest in California with a cost of about \$6,700 a month.

# Trinity County Latest Actual

## Levels and State Rank

1. Inflation and unemployment rates are ordered from the lowest to highest, such that counties with lower rates rank closer to #1, reflecting a favorable economic status.
2. Inflation rates are based on four regional Consumer Price Index (CPI) estimates produced by the U.S. Bureau of Labor Statistics (BLS). County-level CPI data do not exist, and all 58 counties are assigned to one of the four regions or the statewide inflation forecast, resulting in only five distinct inflation rankings.
3. Per capita income is converted into 2024 dollars using the statewide California Consumer Price Index (CPI).
