

Section 37 Working Group Meeting Minutes

Date: Wednesday, May 20, 2020

Time: 1:00PM – 3:00PM

Location: WEBEX MEETING

CT-Chair: Steve Lee

IN-Lead: Scott Dmytrow

Attendees: Veera Nanugonda, Lisa Dobeck, John Fox, Raguparan Thangavelautham, Jessaneil Perez, Sallie Houston, Marc Bertsch

1. 1:00 PM - Introduction
2. 1:10 PM – Discussion of May 6, 2020 meeting minutes and action items
3. 2:20 PM – Discussion of comments in the Resolution Table
4. 3:00 PM – Adjourn

Meeting Notes:

1. Introduction

Roll Call / Introductions

2. Discussion of May 6, 2020 Meeting Minutes

Remove Micro Deval testing from specifications

Decided to use Durability CT 229, with testing done on the 1st day of production.

Review and update specification language and usage requirements for continuous vs truck mount slurry/micro pavers.

No changes on Section 37.

Design guidance should be outside Section 37.

Missing surface preparation requirements in fog/flush seal coats.

Proposed language on the surface preparation for the application of flush coat – to be sent by John to the group.

Scott and Sallie to discuss the test needed for slow-setting or quick-setting asphaltic emulsion. This may be moved to Section 37-4.01B.

Evaluate Section 37-2.01A(4)(b)(iii), Chip seals, and CT 339 to provide a recommendation for hot applied chip seals.

Ensure correct removal of emulsion specification tables which have been moved to section 94 and evaluate how these changes could affect the Quality Control and Quality Assurance requirements within the section.

On hold until all comments in the Resolution Table are addressed.

Coordination with Section 39 on Crumb Rubber specs – Testing frequency on Crumb Rubber

Decided to postpone the discussion on crumb rubber.

Follow-up on Action Items

Outstanding Action Items:

Steve – to send out the scrub seal specifications

Work Group – initial comments to be sent to Maintenance Engineers and District Materials Engineers is not ready yet, to be sent later

3. Discussion of Comments Compiled in the Resolution Table

See table for discussion, responses, actions taken, and additional comments.

4. Action Items

Action Item 1: Veera – to find out if the NSSP for Section 37 exist

Action Item 2: John – to send the proposed language on the surface preparation for application of flush coat.

Action Item 3: Scott and Sallie – to discuss the test needed for slow-setting or quick-setting asphaltic emulsion, and possibly move/add this language to Section 37-4.01B

Action Item 3: Jessaneil – add the comment on moisture content requirement on sand when using chip spreader

Action Item 4: Marc & John – discuss and possibly propose a language on the moisture content and gradation requirement on sand when using chip spreader.

Action Item 5: John – to contact D11 on CT 339M, to be reviewed on next meeting for comments

Action Item 6: Lisa – discuss with Maged on CT 339M

Action Item 7: Steve – to send the scrub seal specifications

Action Item 8: Jessaneil – to arrange the comments in the Resolution Table according to sections

5. Next Step: Meeting will be on Wednesday, June 3, 2020 at 1:00 PM - Microsoft Team.

6. Adjournment
